DETAILED ACTION

Election/Restrictions

1. Newly submitted claims 43-48 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: they are distinct because the second columnar laminate is adjusted to the first columnar laminate in a first direction, the third columnar is adjusted to the first columnar laminate in a second direction being perpendicular to the first direction.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 43-48 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claim Objections

2. Claim 22 is objected to because of the following informalities: claim 22 depends on cancelled claim 21. Appropriate correction is required.

Allowable Subject Matter

3. Claims 15-20, 22-32, 423 are allowed because the prior art of record is neither anticipated nor rendered obvious all the limitations of the base claims 15-16 including etching the second and third insulating films until the conductive film existing over the

side walls of the first semiconductor region of the columnar laminate is exposed; and etching the conductive film exposed.

Conclusion

4. This application is in condition for allowance except for the following formal matters:

The restriction indicated above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
